### DETAILED ACTION

1. This Office Action is made in response to applicant's amendment filed on 4/05/2007. Claims 1, 3-17, and 19-36 are currently pending in the application. An action follows below:

#### ***Allowable Subject Matter***

2. Claims 1, 3-17, and 19-36 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method for reducing false contours in a display panel. Each independent claim identifies the uniquely distinct features removing false contours by calculating the difference in gray levels between a block of a plurality of pixels in a current frame and a corresponding block of a plurality of pixels in the previous frame. The closest prior art, Okano (USPN: 6025818) discloses comparing a single pixel from a current frame with the corresponding pixel in the previous frame, yet fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
